Storytellers in Africa used their vocal expertise for gossip, satire and political comment.

The griot (pronounced gre-o) is symbolic to history, unity and culture. Before the written word came the spoken word sourced from memory and imagination and handed down through the generations for us to know who we are.

This tradition continued in the Caribbean and then to the UK. Join us and listen to negro spirituals, reggae and gospel music, comedy, poetry and stories.

Delicious Caribbean cuisine will be on sale. Have a Rum Punch from our well-stocked bar and enjoy a night out suitable for all the family.
