

## DO YOU REMEMBER THE HONOURABLE MARCUS GARVEY ?

Qadamawi Haile Selassie love and blessings Rastafari family,

I man just a lites up the Honourable Marcus Garvey

The Jamaican reggae Musician chant, Bag O Wire and Madder Mushette sold Marcus Garvey for rice and peas, dem Neva, dem love Marcus Garvey.

At the international level Adam Clayton Jr, Former U.S Congressman and first black member of the New York City Council Stated that: 'Marcus Garvey was one the greatest mass leader of all time. He was misunderstood and maligned but brought to the African people for the first time ,a sense of pride in being black. "

Now Marcus Garvey sey:

'Africa is ours To win Africa we must give up America; we will give up our claim to all other parts of the world, but we must have Africa. We must give up the vain desire of having a seat in the white house in America, of having a seat in the House of Lords in England of being President of France, for the chance and opportunity of filling these positions in a country of our own "

"The doctrine of going "Back to Africa "must be clearly understood. We are not preaching any doctrine to ask all the Negroes of Harlem and of the United States to pack up their trunks and to leave to Africa. We are not crazy. The majority of us must remain here, but we must send our scientists our mechanics and our artisans and let them build railroads, let them build the great educational and other institutions necessary and when they are constructed the time will come for the command to be given "Come Home' Not until then .

'Sons and daughters of Africa arise –the time has come for us to pool our resources and make of ourselves a mighty race and nation. The riches people of the world are the Negro people of Africa. Their minerals. there diamonds, their gold and their silver and iron have build up great English, French, German and Belgian Empires. Men how long are we going to allow these parasites to suck the blood of our children. How long?"

Black men were so powerful in the early days of history that they were able to impress their civilization, culture and racial characteristics and features upon peoples of Asia and Southern Europe. The dark Spaniards Italians Asiatic are colored off-springs of a powerful black civilization and nationalism. Any other statement by historians to the contrary is "bruck'and should not be swallowed by enlightened Negro.

We must have wealth in culture, wealth in education and solidly wealth of economic values. A race that is solely dependent upon another for economic existence sooner or later dies. As we have in the past being living upon the mercies us by others, and by the chances obtainable, we have suffered there from ,so we in the future suffer if an effort is not made now to adjust our own affairs.

Let the Negro couple the urge for money with nationalism, so that in another hundred years—he will have a formidable and well- established nation to protect him any where he happened to find himself with his wealth. There is no better place than Africa his original home. The Negros of the world should concentrate on making money and in using part of it for helping to establish an independent nationalism in Africa

That is WHA MARCUS GARVEY SEY !!

Wha yu sey!
