

RASTAFARI COMMUNIQUE -JUNE 2008

THE RISE OF THE NAZI PARTY IN SOUTH AFRICA

...“History teaches us that Unity has been achieved from the people of different origins. That, differences of race,culture and religion are no more inseparable obstacles in the coming together of peoples” Emperor Haile Selassie I.

Shocking News in the name of the concept of Xenophobia has rubbished the image of the South Africans last Month(May 2008) which has led many Africans from the rest of the continent displaced, with some children left with no fathers as they are displaced in unplanned refugee camps. Those responsible with such shameful violence are claiming that these Africans are taking their jobs,wives,houses and so on. Some they went as far as claiming to be loosing their clan traditions because of this mingling with other Africans.

Whether the reasons are through or nor, nonetheless , everyone should acknowledge the fact that such activities and the tactics used to highlight the plight is uncivilized,normally the methods used by so called Skin Heads and Klu-Klux Klan in America or else can only be associated with the philosophy of the rise of the Nazi Party in Germany under the leadership of the Adolf Hitler during the second world war. Who is behind such activities, South Africa is still waiting to see, as such dubious activities has been conducted by faceless activists. May be this is the beginning and the rise of the Nazi Party in South Africa. Rastafari Working Council condemn such misguided activities. At the same time the Council call for the country leadership led by ANC to lead by example in this regard.

RASSES SHOULD CONDENM VIGILANTISM

The rise of vigilantism in ares like Marcus Garvey should be condemned by Rastas and the area should propagate the visible leadership, condemn such activities as happened on the 3rd June 2008 where a youth was murdered because of theft. This is not the kind of Africa I&I is propagating- ANARCHY, where people will take the law in their own hands where the value of life can be tantamount to commodities. Of cause life is tough,. Nonetheless,we should lead by example at all times.

TWO PRIESTS WILL BE ORDAINED

Rastafari Working Council is busy with the preparations for ordination of the Priests to serve Rastafari in the Western Cape regardless of their mansions. The two Priests, Ras Negus and Joel(Spear) has a proven record in their dedication to their work and therefore the Council had decided ordain and anoint them to serve Rastafari with authority as the disciples and the servants of the Most High. The Council is calling all the Elders of Rastafari willing to partake in this missionary work on the day to come forward and contact the Council, as their participation is crucial in this regard. N.B The Council is aware that two Priests for Western Cape will give them tough time considering the scale of the Province, however, we have to start somewhere.
