

INTRODUCES:

DIALUP INTERNET SERVICE

Rastafarionline.com (ROL) is proud to announce the launching of the Rastafarionline Internet Service Provider (ISP). This is, to our knowledge, the first Rastafari owned and supported ISP, whose purpose is to serve, not only the online customer but also the needs of the Rastafari Community. It serves 56k/s dialup for \$20/month over a Tier 1 network covering the **US** and **Canada!**

Beloved, \$5 of the I's monthly ISP payment will go into **T.R.U.S.T.** (The Rastafari United Services Trust) which will be a tax-exempt investment unit, whose returns will support emergency relief and welfare services for the world-wide Rastafari faith family. Up to date T.R.U.S.T account information will be available at the ROL website on InI message board.

The remainder of the profit, approximating \$3 per month, will be livicated to the operating expenses of the various ROL working committees. The current priority is the ROL Education Committee's *International Rastafari Curriculum Project*.

Why should InI sign up?

Everyone who has a PC either already has or should get an Internet connection, so why not recycle our dollars in InI own community? Not only will InI be supporting the I and I through T.R.U.S.T. with EACH monthly payment, but InI will receive top quality Internet access service, UNLIMITED email boxes per account up to 150Mb total storage, and 50Mb home page space on the Web!

Will I lose my AOL buddies?

No, former AOL users will be able to use AIM the free AOL instant messenger to continue chatting with their AOL friends and family. Other programs like Trillian on Windows, Fire on Macintosh and Jabber on Linux also enable users to chat on the AOL network.

How does it work?

Members [signup](#) at a ROL webpage, download a piece of software from the ROL website, install the software which sets up the local computer to access the ROL network, then click the Lion of Judah (LOJ) icon to connect to the Internet!

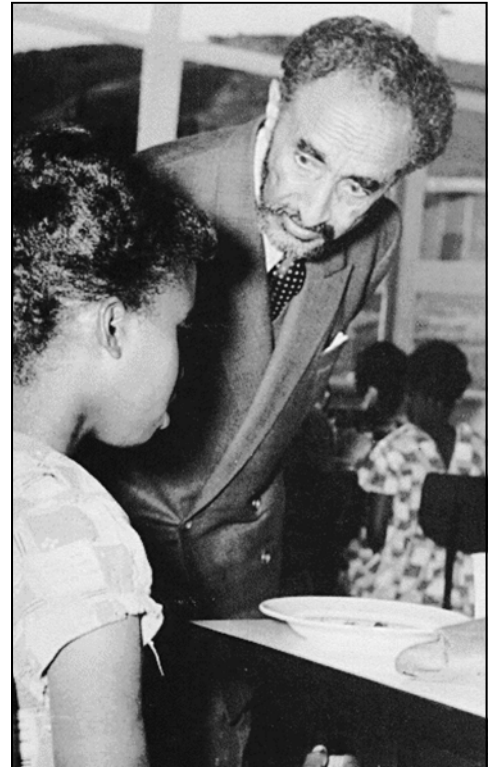

What if I have problems?

Toll free tech support is available 24/7 for members.

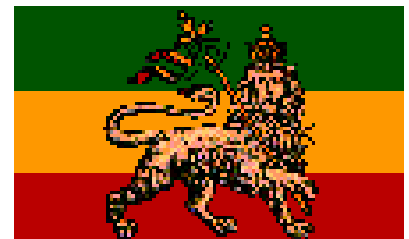

SPECIAL OFFER: The first 100 members will receive either:

- 1) A free DVD copy of "LUMUMBA", the award winning movie on the Congo's assassinated first Prime Minister .
- 2) A free domain (e.g. www.rastafamily.com) and unlimited emails on the domain with equal storage to standard ROL.Net email service.
